RIDE-ON BUGGIES

Ride-on buggies can cause considerable damage to the course when the ground is soft. Please adhere to the following guidelines at all times.

- Use the prepared paths wherever possible.
- Drive at a modest speed to avoid wheel spin.
- In general drive in the rough and take a perpendicular route to cross from one side of a fairway to another.
- Avoid soft areas in the rough, even if this means using the semi-rough or fairways at times.
- Buggies must not be taken within 5 yards of any tee, apron or green unless there is a prepared pathway.
- Please clean your personal buggy at the air hose and not in the car park.
